CONTROL4 APP

The Control4 App turns your iOS or Android mobile devices into the ultimate smart home command center. It connects directly to your system and allows you to control and manage all of your system's features, such as lights, temperature, cameras, audio/video equipment, smart door locks and more.

FEATURES:

➢ *4Sight subscription enables you to connect to your Control4 system from virtually anywhere in the world using the Control4 app.*

➢ *Control lighting, temperature, security and more right from your Apple iPhones, iPads and Apple Watch, Android smartphones and tablets, and the Amazon Fire phone.*

➢ *Remote access is available for all mobile apps, but it does not support PC/Mac (Requires a local network connection).*

4SIGHT WITH ANYWHERE ACCESS:

Add 4Sight with Anywhere Access to your Control4 system and control your home from virtually anywhere in the world with 3G/4G or an Internet connection.*

➢ *Anywhere Access—With a 4Sight subscription, access and monitor your home or business from virtually anywhere.*

➢ *Alerts—Get notifications about the status of your system, such as "Garage door open" or "Water leak detected."*

➢ *Secure—4Sight uses the same secure communication protocols and encryption used by financial institutions, ensuring safe and secure access to your smart home.*

Control4® App

The Control4 app provides a convenient and flexible way to turn your smart phone, tablet, or computer into a familiar Control4® interface. The Control4 app gives you more ways to interact with and manage your home automation system.

While you're at home, The app connects to your Control4 system over your local WiFi network. When you're away, the Control4 app can connect remotely[1] to your system using your 3G/4G cellular service or WiFi connection with an optional 4Sight subscription. Regardless of how you connect to your system, now you can control lights, adjust the temperature, view cameras and more whether you are at home or on the go.

Control4®

Anywhere Access, Enabled by 4Sight

A subscription to 4Sight enables you to connect to your Control4 system from virtually anywhere in the world using the Control4 app. Using 3G/4G cellular service or a remote WiFi connection, now you can control lighting, temperature, security and more from the convenience of your mobile device.[1] Please contact your dealer to find out more or to add 4Sight to your Control4 system.

Control4 App System Requirements

Control4 App for iPhone/iPad
- iOS 7 or later
- Download the app (version 2.4 or later) for iPad from the App Store for free.
- Control4 OS 2.01 or later (OS 2.4 or later required for remote access)

Control4 App for iPhone/iPod Touch
- iOS 5 or later
- Download the app (version 2.4 or later) for iPhone/iPod Touch from the App Store for free.
- Control4 OS 2.01 or later (OS 2.4 or later required for remote access)

Control4 App for Android
- Android OS 4 or later with a screen resolution of 480 x 320 or greater.
- Download the app from the Google Play Store, or alternatively, from Amazon Appstore for Android—for Fire phone or Kindle
- Control4 OS 2.1.1 or later (OS 2.4 or later required for remote access)

Control4 App for PC/Mac
- PC or Mac with Adobe Flash and Adobe Air 2.5.1 or later
- Control4 OS 2.0.1 or later (Remote access not supported)

1. Remote access is available for all mobile apps, but it does not support PC/Mac (Requires a local network connection).

Enhanced 4Sight
with Anywhere Access

The new and improved 4Sight service gives you true "Anywhere Access" to your Control4® system. Monitor and control your home or business from your smart phone, tablet, or web browser virtually anywhere you have 3G/4G or Internet access. A 4Sight subscription also provides alerts on the go and security features designed to keep you safely connected and in control any time, anywhere.

Anywhere Access: Mobile
With the Control4® Control4 App and a 4Sight subscription, you can access and monitor your home or business from practically anywhere using a smart phone or tablet.
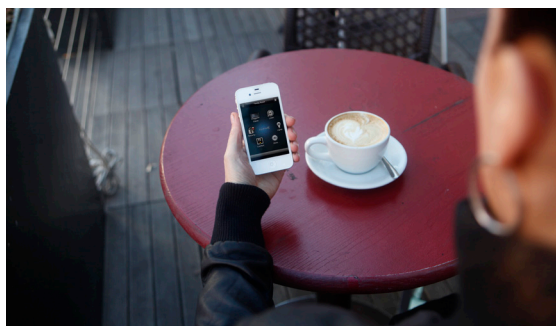

Anywhere Access: Web
Easily access, monitor and control your home or business, virtually anywhere, from a web browser on a PC or Mac.

Alerts On the Go
Your Control4 system can send messages to your smart phone or tablet about the status of your system, so you're always in the know. Custom alerts such as "Garage door left open" or "Water leak detected in the basement" can be sent to inform you of important events as soon as they happen, allowing you to respond quickly.

End-to-End Security
4Sight uses the same secure communication protocols and hack-proof encryption used by financial institutions, ensuring you get on-demand access to your smart home without any of the networking hassles or security concerns.
